Sean Doherty, MD

"What is special about Palomar is that I customize just the right amount of ablative or non-ablative fractional treatment to fit each patient's needs for facial rejuvenation, as each patient has different preferences for speed of treatment, downtime, and the number of treatments he or she is willing to undergo."

— Arielle Kauvar, MD
Director, New York Laser & Skin Care

NEW! Combined ablative/non-ablative fractional treatment FDA cleared for:

- Skin resurfacing
- Wrinkles

Introducing A NEW APPROACH TO SKIN RESURFACING FROM PALOMAR®

Artisan™ is Palomar's flexible suite of technologies specifically designed to treat the common problems of aging skin — wrinkles, age spots, sun damage, stretch marks, and scars. Featuring ablative fractional resurfacing, non-ablative fractional resurfacing, and Optimized Pulsed Light™ handpieces, Artisan can tailor a personalized treatment for each individual's skin rejuvenation needs in a cost-effective package.

Artisan also offers the only FDA-cleared combination fractional ablative and fractional non-ablative treatments, a same-day approach to skin resurfacing that maximizes treatment results with minimal downtime.

The secret of my skin!

Scientific Committee

Dear Colleagues,

As Congress President it is my pleasure to invite you to attend the Second 5-Continent-Congress.

This year the congress will be held from September 1st – 3rd 2011 in Cannes, against the backdrop of the French Riviera with its beautiful beaches, historic buildings and inviting markets. Our congress venue, the Hotel JW Marriott Cannes, is located in the heart of Cannes on the glamorous Promenade de la Croisette just a few steps away from the beach. Cannes is the city where the famous International Film Festival is always held. The members of the board and myself invite you to explore this great location during your visit to our congress.

The 5-Continent-Congress is organized by an international group of highly acclaimed Dermatologists and Plastic Surgeons who are all key opinion leaders in their area of expertise. Together we have taken up the challenge of organising a highly professional three day conference dedicated to innovations and controversies in the field of aesthetic medicine.

This year's program offers a great range of international specialists from more than 30 countries and from five continents. The 5CC was created as professional platform for extensive interaction and advanced training. We are confident that you will find our lectures, workshops and hands-on sessions enlightening and inspiring. There will be ample opportunity to exchange experiences with colleagues and widen your professional and social network. Session highlights include our "Around the Globe" sessions, where different aspects of aesthetic medicine are discussed from a global perspective; our "Update"-sessions with the latest developments and innovations in the field; as well as our "Special"-sessions on a wide range of essential topics such as "Fact or Fiction?".

As a highlight we would like to invite you to an exclusive Gala Dinner at the Hotel JW Marriott Cannes on Friday, September 2nd. This occasion will give you a further opportunity to catch up with old friends and colleagues as well as meet new ones.

We hope to see you in Cannes on September 1st!

Best regards,

Maurice Adatto, MD (Switzerland), Congress President

Christine Dierickx,
MD (Belgium)
Congress Vice President

CoolSculpting: The World's Only Proven, Non-Invasive Fat Removal Procedure Using Cryolipolysis

Featured Speakers:
Dieter Manstein, MD, PhD
Suzanne Kilmer, MD
Christine Dierickx, MD

Discover CoolSculpting — and A Whole New Opportunity for your Patients and Your Practice
CoolSculpting is revolutionizing fat reduction aesthetics. This patented, non-invasive treatment uses Cryolipolysis to target, cool and eliminate fat cells. With proven clinical efficacy and demonstrated high patient satisfaction, CoolSculpting is now offered through select physician-based aesthetic practices worldwide.

Welcome to Cannes

Cannes

Capital of cinema, city of stars and luxury... Cannes is known throughout the world today thanks to its International Film Festival. As the third largest town in the region in demographic terms, after Nice and Antibes, this town offers a wide variety of tourist and cultural activities. Where you can dip your feet in the sea, Cannes is a renowned seaside resort where the sun (practically) always shines. However, the town's assets do not stop there. Its history gives it a characteristic identity.

Entertainment

It is impossible to talk about Cannes without mentioning its famous Film Festival and the Palme d'Or, which became a landmark of the city. The festival which was founded in 1946, is one of the most famous cinematographic events in the world. The biggest names in the film industry appear during the second half of May. Due to the festival's attraction to people from all over the world, the town's population nearly triples during this event. The famous festival takes place mainly in the Palais des Festivals, at the end of La Croisette.

Architecture

Le Suquet is the oldest district in Cannes and it is there that you will find the old town. Perched as it is on a hilltop, the village was protected from invasion by sea. At its peak, the 11th Century castle provides a panoramic view of Cannes bay. You can also see La Tour de la Castre (Castre Tower) and a church dedicated to sailors and fishermen.

Forville Market

The main shopping street in Cannes is called the Rue d'Antibes - home to all sorts of boutiques. The town also has several markets, such as the Forville Market behind the town hall. This market offers all kinds of fresh high-quality products and it is not unusual to run into the area's chefs. The Gambetta market near the train station on the other hand offers all kinds of products from vegetables to clothing, you can also get a range of accessories to match.

Travelling to Cannes

Cannes is located on the Mediterranean coast in the French department of Alpes-Maritimes in the region of Provence-Alpes-Côte d'Azur. There are several ways of travelling to Cannes: by air, by sea and by land, with the quickest option being by air.

Flying to Cannes

If you prefer to fly to Nice, the nearest airport would be Nice, which is about 18 miles from Cannes. Most major cities in the world fly to Nice. A transport service runs between Nice and Cannes approximately every 30 minutes during the day. You could hire a taxi which takes about 25-30 minutes. Airport taxis ranks are located in front of the entrance doors of the Terminals 1 and 2. A helicopter service runs between Nice and Cannes and takes about half an hour.

Travelling by train to Cannes

You can get to Cannes via Nice on the France SNCF rail network. In fact, you can pretty much get a train from anywhere in France. A train from Paris to Cannes takes about 5 hours, travelling on a high speed train to Marseilles and then on to Cannes.

Information

Logi-Vent GmbH acts as an intermediary and is not responsible or liable for any loss, accident or damage to any persons or property during the entire congress independently of their origin. Any other agreement will only be effective if in writing and signed by both parties.

Cellulite.

Special Pre-Conference Sessions

Wednesday, August 31st, 2011

Home-Use Devices Symposium: 2:00 pm - 6:00 pm

The debate will be presented by three world class chair persons:

► G. Town, C. Dierickx, M. Haedersdal

Introduction ► G. Town

Regulatory

• Regulations in Europe ► J. O'Hagan

Dr. John O'Hagan is leader of the Health Protection Agency's Laser and Optical Radiation Dosimetry Group in the UK and chairs several national and international Standard's committees. He's also Director of Division 6 „Photobiology and Photochemistry“ of the CIE. He will speak about regulations and standards in Europe.

• Regulations in USA ► D. Sliney

Dr. David Sliney has served as a sub-committee chairman on the American National Standards Institute (ANSI) Committee Z-136, Safe Use of Lasers for more than 40 years, serves as a convener of an IEC laser standard committee, and serves on the ANSI Committee for RP-27, Photobiological Safety of Lamps and Lighting Systems.

• Regulations in Japan ► T. Omi

Dr. Tokuya Omi, an eminent dermatologist from Japan will speak about the Japanese standards & regulatory position. It is clearly understood that Japan is an active member of the International Electrotechnical Commission (IEC) and that internationally agreed standards are adopted nationally by member countries like Japan to provide voluntary guidance to industry when manufacturing products to international standards.

Clinical

- Overview of Available Home-Use Devices ► M. Lapidoth, C. Zachary
- Review of Literature on Clinical Efficiency: Hair Removal and Rejuvenation
► D. Petersen/ M. Haedersdal
- Applications of Home-Use Devices Under Medical Supervision ► P. Bjerring

Safety

- Side Effects ► D. Sliney
- Long Term Safety ► J. Nash

Abstract Presentations

- Free Abstracts: Focus on Safety of Home-Use Devices

Conclusion: ESLD Recommendations ► M. Haedersdal

Special Pre-Conference Sessions

Wednesday, August 31st, 2011

ESLD Fostering Course in Association with EADV: 9:00 am - 6:00 pm

The program of a global laser conference – i.e. the 2nd 5-Continent-Congress “Lasers and Aesthetic Medicine” – offers a perfect platform and generates a panel of internationally renowned speakers for a Fostering Course.

5-Module-Program: 9:30 am - 6:00 pm

9:30-11:00	Module I: Pigmentation	
9:30 - 10:15	Hypo and Hyperpigmentation - How to Treat, How to Avoid	K. Fritz
10:15 - 11:00	Topical New Therapies for Pigmentation	M. Gold
11:00 - 11:15	Coffee Break	
11:15-12:50	Module II: Skin Tightening, Rejuvenation, Scars	
11:15 - 11:45	Laser and Light in Scars	M. Adatto
11:45 - 12:10	Fractional Lasers	C. Dierickx
12:10 - 12:40	Fractional RF	K. Fritz
12:40 - 12:50	Panel Discussion	All
12:50 - 14:00	Lunch Break	
14:00 - 15:00	Module III: Marketing & Future	
14:00 - 14:30	Marketing-An Essential Tool for Laser Treatment	M. Gillner
14:30 - 15:00	„What’s New“ - Future Trends in Laser and Light	S. Halachmi
15:00 - 16:15	Module IV: Vessels	
15:00 - 15:40	Vascular lasers	M. Adatto
15:40 - 16:00	Beta Blocker Versus Laser	G. Kautz
16:00 - 16:15	Customizing Laser Treatment to the Individual Patient	D. Cassuto
16:15 - 17:00	Module V: Complications & Safety	D. Goldberg
17:00 - 18:00	Panel Discussion & Conclusions	All

Participation Fees

EUR 350 regular fee

EUR 200 reduced fee (for EADV and ESLD members)

Special note: 10 seats will be donated to interested potential participants from developing countries!

MS - Marketing Session

Course Chair - Wendy Lewis, President, Wendy Lewis & Co Ltd, Global Aesthetics Consultancy with Daniel Parry, MBA, Senior Business Consultant, Allergan

Key Success Factors in a Medical Aesthetics Practice

For practitioners, clinic managers, and practitioners transitioning into aesthetics this program will provide a practical, hands-on overview of important components of a successful aesthetics practice, including: Writing a business plan, setting benchmarks, assessing your staffing needs, choosing the optimum services and products offering, managing cosmetic patient expectations, delivering 5-Star customer service, and common pitfalls to avoid. The session will have time for questions to the presenters.

Marketing Pearls for Your Aesthetics Clinic: The New Paradigm

As marketing for aesthetic clinics has evolved and become more sophisticated, this session will present practitioners and clinic managers with the spectrum of methods that have proven to be effective to help grow their clinics and increase revenue; including social media marketing, website development, Google vs Facebook, blogging, effective open house seminars, elast programs that drive repeat treatments, writing a marketing plan, setting a budget, and measuring return on investment (ROI).

Introducing

Ultherapy®

Ultra Response. Ultra Lift. Ultra Sound.

**The First and Only Device
FDA-Cleared *for* Non-Invasive Lift
for Facial Aesthetic Improvement**

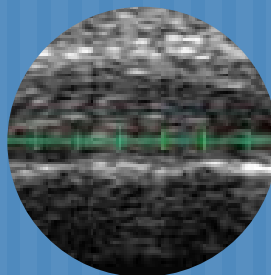

A whole new category of treatment,
offering a non-invasive option for
treating lax skin.

**New Application *of* Trusted
Ultrasound Technology**

Micro-focused ultrasound
that allows practitioners to
SEE layers of dermal and
fibro-muscular tissue and then
TREAT targeted layers with
unprecedented precision – all
without disrupting intervening
tissue.

Consistent Clinical Efficacy

Predictable, reliable outcomes
through proper patient selection
and optimized treatment parameters

Special Post-Conference Workshop

Sunday, September 4th, 2011

**Special
sponsored
price:
450 €**

Part 1, 9:00 am - 1:00 pm

Aesthetic Mesotherapy - The NETWORK-AestheticMeso Treatment Protocol

The standardized treatment protocol, as developed by a NETWORK group of experts, is intended to simplify treatment and to make the results of aesthetic mesotherapy comparable and successful. For the first four indications; MesoGlow (appearance of the skin), MesoLift (tightening and revitalisation of the skin), MesoHair (hair loss) and Meso-Cellu (cellulite combination therapy), standardized treatment protocols and ready-made mixtures have been developed, which enable comparative assessment for the first time. Alongside the protocol description the materials used are also described, such as "mesopistols", needles and recommendations made for different application areas.

Dr. med. Michael J. Weidmann / Director NETWORK-AestheticMeso

**Special
sponsored
price:
750 € €**

Part 2, 2:00 pm - 6:00 pm

Injection-Lipolysis - The Gold Standard Treatment Protocol

The objective following successful completion of the course is to be able to administer the treatment according to the worldwide standardized protocol of NETWORK-Lipolysis. The course provides an overview of the scientific background of lipolysis. It presents information on the substances used, particularly phosphatidylcholine and deoxycholic acid. Special emphasis is placed on practical relevance. As part of the practical course component, experienced trainers will offer important tips on successful treatment and injection practice.

Dr. med. Michael J. Weidmann / Certified NETWORK Trainer

Special Combination offer for both Workshops: 1000 €

Further information and registration forms you will find on: www.network-lipolysis.com or www.5-cc.com under "Special Events" or please contact our registrations manager: Mr. Muechler, phone: +49 - 2506 - 306 19 22, E-mail: workshop@network-lipolysis.com

**The number of participants in this exclusive event is strictly limited.
REGISTER NOW!**

Dr. M. Weidmann

Participants who participate in the post-conference workshops "Aesth. Mesotherapy" and/ or "Injection-Lipolysis" will receive a 50 % discount off the 5-Continent-Congress registration fee.

CUTERA[®]

More Treatment Options In Your Hand

"What excites me most about the Cutera Excel V is that it comprises a single, reliable, consumable-free laser platform which effectively treats all vascular lesions and superficial pigment disorders."

- Whitney D. Tope, M.Phil., MD

Introducing the all new **Excel VTM** vascular laser.

Treat More Vascular Conditions

from small superficial vessels to large vascular lesions with the most powerful **KTP** and **Nd:YAG** Laser with True Pulse Technology.

Continuously Protect the Epidermis

before, during and after delivery of the laser pulse.

See More Clearly

with the unique large sapphire window and immediately see the vessel response.

Increase Precision

by matching the beam size to the target vessel.

Save Time and Money

with an energy efficient, small system that calibrates automatically and needs no disposables or consumables.

Award for the Best Abstract

Call for Abstracts

The Organizers invite scientists, clinicians and researchers to submit their abstract(s) to the 5-Continent Congress. It is possible to send an abstract for the following themes:

- Laser
- Dermatology

The DEADLINE for ABSTRACT submission is: June 30th, 2011

You can file your abstract registration on www.5-cc.com under the link: Abstracts

Authors will be notified of the selection results by email early July 2011 and will receive all technical information and presentation instructions prior to the Congress.

Remember that **ONLY** electronically submitted abstracts will be considered.

Please note that you must be registered to file and to present your abstract at the 5CC in Cannes.

Terms and Conditions:

1. Selected abstracts will be presented as oral presentations during the Abstract-Sessions.
(You can underline your presentation with some slides with a PowerPointPresentation or a DIGITAL poster)
2. Abstracts received after the deadline will not be accepted and will therefore not be considered for the program.
3. Abstracts must contain work that has not been previously presented at any national or international meeting before 5CC.
4. Authors will be required to select their preferred type of presentation on their online submission form.
5. Abstracts will be peer-reviewed by the Committee without knowledge of their source.
6. Acceptance or rejection of an abstract will be based on the average grade awarded by the reviewers.
7. The abstract should be presented in such a way that the contribution of the research to advance knowledge can be assessed.
8. The authors' conclusions should be clearly stated. General statements such as "the significance of these findings will be discussed" will be regarded unfavourably and will generally lead to the exclusion of abstracts.
9. Initials and abbreviations which are not in common use should be avoided unless they are essential.
10. Remember to check spelling and grammar carefully. Your electronically submitted abstract text will be reproduced as submitted.
11. The Committee reserves the right to: 1) select the abstracts relevant to the sessions; 2) decide on the final form of presentation.
12. The Committee will accept one abstract for presentation per presenting author.
13. There shall be max. 3 co-authors.
14. Every presentation should be between 5 - 7 minutes and 2 - 3 minutes for discussion and questions.

Please note: Abstracts cannot exceed 300 words.

Note: You must be registered for the congress. You can find the registration form on www.5-cc.com.

Abstract CD

If there are more than 30 abstracts we would be interested to make an abstract CD. Please confirm on your registration form for abstracts that you agree to publication of your abstracts and your personal data e.g. name, address, clinic, office, university.

Your personal data will be taken from your registration form

When your abstract is on the CD it is quotable and in this form a scientific work.

Speaker disclosure of potential conflicts of interest

The 5CC Scientific Program Committee requires that all presentations be as free of commercial bias as possible and that any information on commercial products or services be based on already generally accepted medical thinking. It is also preferred that generic drug names be used wherever possible and that any presentation referring to unlabelled or research-associated commercial products should disclose this situation to session attendees.

The best abstract in each category will receive a certificate and a financial prize of € 2,000.

Only registered persons are allowed to submit and to present an abstract.

Abstract Sessions on Saturday, September 3rd

MERZ AESTHETICS

Focus Session on Botulinum Toxins & Alternatives

Friday, 2 Sept., 2:30 – 4:00 p.m.
Main Lecture Room

Unique products for customised results

Discover the Merz Aesthetics product line, a full range of aesthetic options that deliver individual solutions and excellent results. To find out more, please visit www.merzaesthetics.com.

Radiesse® (CE0086) and Belotero® (CE0120) are medical devices

Bocouture® 4 units/0.1 ml powder for solution for injection. **Active substance:** Botulinum toxin type A (150 kD), free from complexing proteins. Prescription-only medicine! **Qualitative and quantitative composition:** One vial contains: 50 LD₅₀ units of Botulinum toxin type A (150 kD), free from complexing proteins, Human albumin, Sucrose. **Therapeutic indications:** For temporary improvement in the appearance of moderate to severe vertical lines between the eyebrows seen at frown (glabellar frown lines) in adults below 65 years when the severity of these lines has an important psychological impact for the patient. **Contraindications:** Hypersensitivity to Botulinum neurotoxin type A or to any of the excipients, generalised disorders of muscle activity (e.g. myasthenia gravis, Lambert-Eaton syndrome). Presence of infection or inflammation at the proposed injection site. Bocouture® should not be used during pregnancy unless clearly necessary. The use of Bocouture® during lactation cannot be recommended. **Undesirable effects:** Usually, undesirable effects are observed within the first week after treatment and are temporary in nature. Localised pain, tenderness, itching, swelling and/or haematoma can occur in conjunction with the injection. Temporary vasovagal reactions associated with pre-injection anxiety, such as syncope, circulatory problems, nausea or tinnitus, may occur. **Common** ($\geq 1/100$, $< 1/10$): headache, muscle disorders (elevation of eyebrow), sensation of heaviness. **Uncommon** ($\geq 1/1,000$, $< 1/100$): bronchitis, nasopharyngitis, influenza, depression, insomnia, facial paresis (brow ptosis), vasovagal syncope, eyelid oedema, eyelid ptosis, blurred vision, tinnitus, nausea, pruritus, skin nodule, muscle twitching, muscle cramps, injection site reactions (bruising, pruritus), tenderness, influenza like illness, fatigue (tiredness). For adverse reactions reported with the comparator product containing conventional Botulinum toxin type A complex of equal potency see Summary of Product Characteristics. **General:** In rare cases, localised allergic reactions, such as swelling, oedema, erythema, pruritus or rash, have been reported after treating vertical lines between the eyebrows (glabellar frown lines) and other indications. For undesirable effects when treating other indications with Botulinum toxins see Summary of Product Characteristics. Merz Pharmaceuticals GmbH, 60048 Frankfurt/Main, Germany, Phone: ++49-69/1503-1. For additional information, please refer to the Summary of Product Characteristics.

Congress Venue

The Hotel JW Marriott Cannes is located in the heart of Cannes on La Croisette just steps away from the beach with breathtaking views of the Bay of Cannes and the Lerins Islands. The hotel recently completed a renovation of the 261 rooms and suites now featuring modern design and amenities, a refurbished rooftop swimming pool with jacuzzis, two restaurants, a casino, 820-seat auditorium and flexible meeting space.

Accommodations

The bright and spacious 261 rooms and suites have been completely renovated and now feature richly stitched leather accents, upholstered walls in sophisticated shades of chocolate, and dramatic black and white portraits of iconic film stars. Rooms have also been upgraded with flat screen TVs, high-speed Internet access, mini bars, bathrooms with shower and bathtub, office area, king-size beds (twins available upon request). Some suites have private terraces.

Hotel Facilities

Swimming Pool: The lively rooftop scene offers a refurbished heated swimming pool and Jacuzzis adjacent to the panorama Bar. The pool is open year round from 7:00am to 11:00pm. Upon request the hotel provides sun beds, private cloakrooms and showers.

Beach: The hotel has convenient access to one of the city's famous sandy beaches just steps away, and provides food and beverage beach service for guests while lounging on one of the many luxurious sun beds.

Casino: Hotel JW Marriott Cannes offers an in-house casino with 150 slot machines, 19 gaming tables and VIP lounges.

Location/Getting there

The hotel is located in the coveted center of La Croisette on the waterfront in the heart of Cannes. Hotel JW Marriott Cannes also sits on the original Palais de Congrès, where the first Cannes Film Festival was held until the new Palais des Festivals was inaugurated 1983. The hotel is conveniently located within walking distance of the old city, Palais des Festivals and the old port and it is approximately 18 miles (30 minutes by car) from the Nice International Airport with access to taxis and shuttle service. Guests are also less than a mile from the Cannes TVG train station for convenient travel within Cannes and other destinations.

Address

Hotel JW Marriott Cannes
50 Boulevard de la Croisette, BP 224
06414 Cannes Cedex - France

Reservation

The Hotel JW Marriott Cannes is fully booked. It would be a pleasure for us to assist you with further accommodations.

Thursday, September 1st, 2011
6 European CME credits (ECMEC)

Friday, September 2nd, 2011
6 European CME credits (ECMEC)

Saturday, September 3rd, 2011
6 European CME credits (ECMEC).

General Terms and Conditions

Registration

Online registration at www.5-cc.com is the preferred method of registration. Participants and accompanying persons are requested to register in advance by completing and submitting the registration form with appropriate fees. Registration is also possible by fax or regular mail. In order to avoid duplicate charges, please submit your registration ONCE only.

Registration Fee for Delegates includes

- Admission to Scientific Sessions and Symposia
- Congress Bag with numerous Congress Documents
- Tea and Coffee Breaks
- Admission to Exhibition
- Lunch is not included in the participation fee. You may purchase lunch vouchers on-site for a special low-price each day.

Registration Fee for Accompanying Persons includes

- Admission to Exhibition
- No access to Scientific Sessions and Symposia

Registrations received after August 18th, 2011 will be processed as on-site registrations.

Reservations for the Gala Evening as well as for all optional activities (in addition to the Congress fee) must be indicated on a special registration form which will be sent separately to participants.

Registration is only valid if the complete payment of the conference fee as well as of other services booked has been made. Registration on site is possible during the entire congress within the opening hours of the registration desk. On site only credit cards and cash payment in EURO will be accepted. When registering at lower fees, a valid proof of status has to be presented on site. Please note that seats for workshops and symposia are limited.

Liability Disclaimer

The Organizers cannot be held liable for any hindrance or disruption of the Congress arising from political, social or economic events or any other unforeseen incidents beyond their control. The Organizers will accept no liability for any personal injuries sustained or for loss or damage to property belonging to Congress participants, either during or as a result of the Congress or during all tours and events. Registration of a participant, sponsor or speaker entails acceptance of these conditions.

Cancellation Policy

We will refund 80 % of the participation fee with a € 30 processing fee, if written cancellation reaches Logi-Vent GmbH before May 31st, 2011. We will refund 50 % of the participation fee with a € 30 processing fee, if cancellation reaches Logi-Vent GmbH before July 31st, 2011. After this date no refund will be possible.

Confirmation

When appropriate fees have been received, a confirmation will be sent to participants. This authentication should be presented at the registration desk in Cannes.

Payment should be made in Euros, without charges for the beneficiary as follows:

- By credit card (American Express, Eurocard/Mastercard, Visa). Your card number, expiration date, credit card verification number, date and signature must be indicated when registering.
- By bank transfer.
- On-site payments can also be made in cash.

Information

Logi-Vent GmbH acts as an intermediary and is not responsible or liable for any loss, accident or damage to any persons or property during the entire congress independently of their origin. Any other agreement will only be effective if in writing and signed by both parties.

General Information

Certificate of Attendance

All registered attendees both pre-registered and on-site will receive a certificate of attendance issued on-site.

Official Language

English will be the official language of the Congress.

Letter of Invitation

Those persons needing an official Invitation Letter in order to attend the Congress may contact: ramona_rustemeyer@logi-vent.de specifying the necessary details. This service is designed only to assist participants who need to obtain a visa or permission to attend the Congress. It should not be considered as an official invitation covering fees or other expenses.

Name Badge

All delegates and accompanying persons will receive a name badge on-site. The name badge is your ticket for booked activities and sessions. Admission to the Congress will not be allowed without badge identification.
